HRL Student Move-in Report

BASIC OVERVIEW

Scheduled Refreshes are daily at the following times.

a. 7 AM
b. 11 AM
c. 3 PM
d. 5 PM

Those times can be adjusted via request.

NOTE: The above times are when refreshes start. Please allow up to 15 minutes for the report to complete it's refresh.

OCCUPANCY START DATES

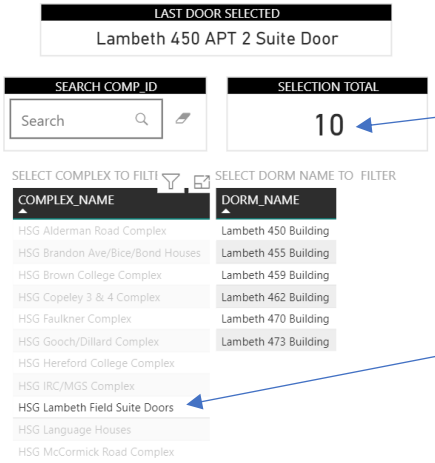
a. Admissions will be adding to these dates incrementally – so you may not see all the start dates for a session at one time.

b. The previous session can be seen on the 2nd page, "Student HAS Checked-In" but occupancy dates will change at the start of a new session.

   NOTE: there MAY be exceptions or doubles that show up.
   Example: Student was living on-grounds at some location for summer session but will move to their new quarters for the Fall session. Sometimes the Occupancy Dates overlap.

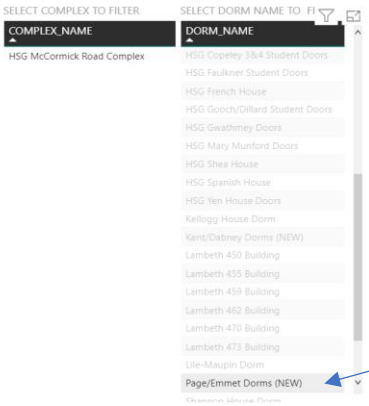
FILTERING DATA

Clicking on COMPLEX NAME filters students assigned to that area. Note, SELECTION TOTAL calculations change and follow further filtering by DORM NAME as needed.



Total number of students in the complex will appear in this box.

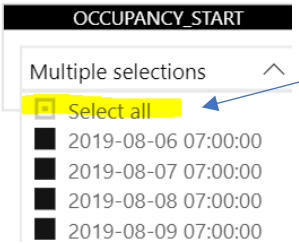
To remove filter, click filtered item again to release.



NOTE: clicking on a DORM NAME may cause the filtered name to drop out of sight. Scrolling slowing will reveal it.

Clicking on the higher level, i.e., "Complex" will release filter.

To remove filter on computer ID search, click on the eraser.

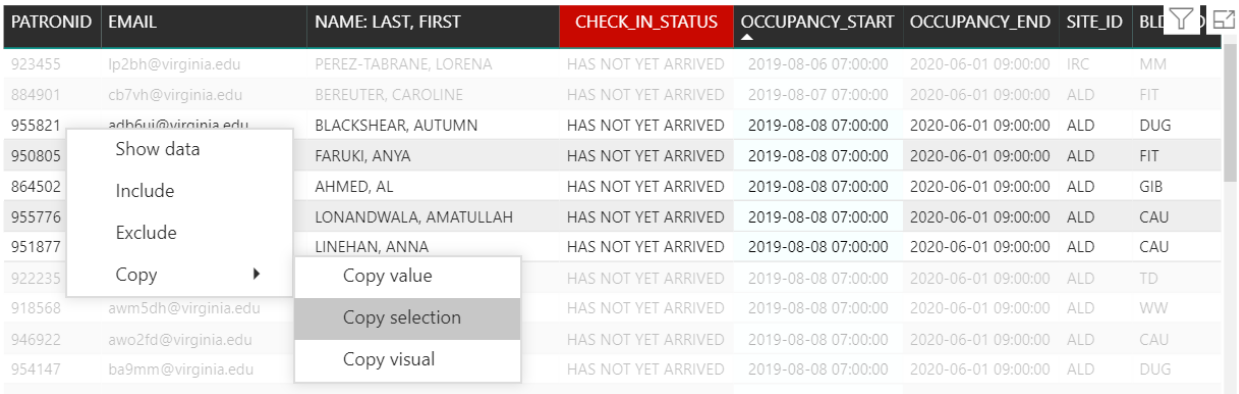


Occupancy Start date is defaulted to SELECT ALL.

Select single or multiple selections by holding the Ctrl key on keyboard and using cursor to make multiple selection.

SELECTING AND COPYING ROWS

Holding the Ctrl key down and make selection then right-click to make your choice.



OCCUPANCY START will show the dates of students who have yet to arrive.

Use "TODAY'S DATE" to compare student list of start dates.

EXAMPLE: student is one day beyond their expected start

On page 2, OCCUPANCY START shows the most recent student check-ins.
